

MAT-ICE

DIVIDERS * BLOCKS * ICE PLAYGROUND

DIVIDERS

MOBILE RINK DIVIDER SYSTEM

Made of thick materials resistant to low temperatures, moisture and cuts.

Filled with foam T25.

Covered with very durable tarpaulin material 680g.

The tarpaulin cover is not stapled but welded and riveted by the method used in the production of truck tarpaulins.

Owing to all the above our products are very durable.

DIVIDERS CAN FREEZE TO ICE !

Dimensions 20 cm x 20 cm x 250 cm

Weight 5 kg.

A large selection of colour.

Fixing method: Velcro and adjustable double Duraflex buckles.

The buckles ensure reliability of the connection regardless of the conditions on the ice rink (moisture, low temperature).

**Set of 12 dividers / 30 m (1 divider dimensions 20 cm x 20 cm x 250 cm) + logo/ads + 2 endings
You can order dividers of any thickness and length.**

To process an order we need the following:

- 1. The exact width of the ice rink**
- 2. Dividers colour**

- 3. The logos of clubs and sponsors in good quality file**

After receiving the logo, we make a free graphic design for customers to approve.

We always send the photos of work progress to our customers.

Small playing fields with extra adjustable corner endings

BLOCKS

They add variety to ice skating and they attract the youngest children to ice rinks.

Made of foam and colourful tarpaulin materials resistant

to low temperature, moisture and cuts.

A set includes 20 blocks with 2 arches + 100 cm x 100 cm x 170 cm metal wheeled basket for transport.

Various block shapes and sizes support skating learning.

They can be used as seats for relaxing.

You can order blocks of any quantity and size.

ICE CASTLE

The ICE CASTLE, is a good alternative to monotonous skating around the ice rink. The ICE CASTLE guarantees great fun for experienced skaters and greatly helps the youngest take their first steps on ice.

Our product is made of foam and materials resistant to moisture and cuts. The castle is fixed with Velcro and plastic buckles which make it light and safe and durable as well.

One castle contains 8 walls (100 x 170 cm), 4 arches (100 x 140 cm) with obstacles

It is possible to purchase extra elements to create own set.
